## Professional Summary

Frontend Developer with strong foundation in HTML5, CSS3, Bootstrap, JavaScript, Material UI, jQuery and React.js for frontend development. Familiar with Node.js and MongoDB databases for backend implementation. Eager to apply technical skills in creating responsive, user-friendly web applications while continuously learning and adapting to industry best practices. Seeking opportunities to contribute and grow in a collaborative development environment.

## Projects

### StreamTalk [Live Link](#)

- Designed and developed Stream-Talk, a real-time chat application for seamless communication.
- Styled with Tailwind CSS & Daisy UI for a modern and responsive UI.

### Blog Hub [Live Link](#)

- Built a blog platform with React.js and Vite, focusing on an efficient build process. Created a user-centric design with effective application state management for a smooth experience.
- Implemented a responsive design to ensure seamless viewing across various devices.

### News Web-App [Live Link](#)

- Developed a dynamic news aggregation website that fetches and displays the latest news from various reliable sources using News API.
- Integrated real-time news fetching through News API for up-to-date content delivery.

### Cricket Game [Live Link](#)

- Created a simple one-over cricket web-based game, showcasing front-end web development skills.
- Implemented a web-based, responsive cricket game with interactive UI using HTML5, CSS3 and JavaScript for dynamic gameplay and smooth user interaction.
